Differentiators

Certified Technical Expertise: With hands-on technical experience and certifications in AWS, Azure, CompTIA, PMP, SAFe, and Scrum Master, our team delivers solutions backed by industry-standard methodologies, ensuring precision, efficiency, and best practices adherence.

Collaborative Approach: We prioritize collaboration and partnership, working closely with you to understand your objectives and challenges.

Tailored Solutions: Our approach goes beyond one-size-fits-all solutions, ensuring that our offerings are specifically designed to address your organization's requirements and goals.

Past Performance

25 years of combined founder's expertise, to protect digital assets, mitigate risks, and ensure regulatory compliance across commercial and government industries.

Led a team in implementing FEDRAMP-compliant AWS infrastructure for critical Air Force operations, ensuring robust security measures and regulatory adherence.

Azure Architect for Navy Readiness Project. Spearheaded Azure architecture design and database development initiatives for a crucial Navy readiness project, enhancing data management efficiency and operational readiness.

Azure Data Engineer for OPM (Office of Personnel Management). SME to Azure data engineering projects, focusing on Azure Data Factory implementation and SAFe agile methodology adoption.

Played a key role in optimizing data workflows and facilitating agile practices for enhanced project delivery across state and commercial clients.

Core Competencies

Cybersecurity: We ensure that all solutions meet the highest standards of security and compliance, safeguarding sensitive information.

Artificial Intelligence: Leveraging Generative AI/LLM for innovation, automation, and enhanced decision-making.

Project Management (SAFe, Agile): Efficient project delivery through industry-standard methodologies and adaptability.

IT Staffing: Providing specialized talent for business growth and innovation.

Cloud/DevSecOps: Designing secure and efficient cloud environments for accelerated deployment.
